Abstract

You are very welcome to Heroes Of Crypton (HOC), our project is all set to shake things up in the world of Decentralized Finance as we take Play-2-Earn blockchain technology to a whole new level. Just imagine playing your favorite superhero meme characters while earning native tokens. Heroes Of Crypton sits at a crossroads of 3 major tech trends: non-fungible tokens (NFTs), blockchain based Decentralized Finance (DeFi), and video games as we combine Gaming with Digital Collectibles to bring an exciting new ecosystem to the Binance Smart Chain. We are building a comprehensive platform with static reflections employing play to earn gaming mechanisms to enable gamers from all over the world experience NFTs + DeFi + Gaming all while earning tokens. We have created a Play-2-Earn gaming platform called 'Heroes of Crypton' which features the blockchains favorite meme tokens. This is all developed and integrated around MyNFTMarketplace.io. Our platform has been designed to use our Hero Tokens as in game tokens and our members will get the chance to purchase HoC NFT's for staking rewards while playing to earn. Our Hero in game tokens will also be the only currency MyNFTMarketplace.io excepts, meaning while users mint/buy/sell their NFT collections, all transactions have a 10% liquidity transaction fee for the Hero tokens and all NFT staking pools will reward users with a daily passive income.

Heroes Of Crypton (HOC) Introduction

If you are reading this, you are joining the most exciting new DeFi gaming project being launched on the Binance Smart Chain (BSC). Heroes Of Crypton is not just another meme token, rather, it is the result of years of careful study and analysis on what makes a very successfully BSC project and how to maximize investor returns, community engagement and token utility to the absolute maximum. HOC aims to build on the success of an already thriving blockchain gaming industry, while advancing it as we also bring you a high rewards project with safety and security at the forefront of everything we do. With a mission to change the way new investors view and experience crypto, we pride ourselves on transparency, professionalism, and dedication to make this happen. Driven by data, informed by insight we seek to bring innovation into everything we do. We are proud of our diverse and growing community coming from all corners of the globe, from all walks of life, guiding others within the DeFi space to Heroes Of Crypton and explaining it's inevitable potential, which we hold dearly within our values as we realize the crucial role a strong community has within our project. At the center of it all, the goal remains to create a project that combines fun with high rewards for our holders while creating an unbreakable community

<https://www.heroesofcrypton.com>

foundation through our unique HoC Ecosystem. Creating a community project is embracing and recognizing that strength and growth does not come from a single perspective, but by creating a cohesive unit, where the sum of all parts come together to make it whole. Given this perspective and vision, we are excited to present to you **HEROES OF CRYPTON (HOC)**.

Why have we decided to launch on the Binance Smart Chain?

There are several reasons why we decided to make the home of Heroes Of Crypton on the Binance Smart Chain. One of the key aspects of choosing the Binance Smart Chain is that the low transaction fees and the high speed of transactions, which makes it more accessible for mass adoption. Furthermore, with an algorithm that uses 21 validators that makes it possible to create a new block every 3 seconds. This provides an incredible infrastructure at high-speeds with very low costs for investors. Finally, with the ecosystem still growing, as more projects move from the Ethereum platform to BSC, this still provides an incredible opportunity for us to develop our market share within the landscape.

Team Core Values

- Community
- Trust and Transparency
- Innovation

Not only does Heroes Of Crypton have the best and most innovative project on the market, but the emphasis placed on transparency and trustworthiness will support an incredible community of passionate investors and long-term asset holders. Our values mission consists of three very important pledges: our pledge to our community, our pledge to trust and transparency and finally our pledge to innovation.

Community

Heroes Of Crypton is very much a community-driven project, reflecting not only high rewards through gaming and NFT staking, but also the ethical status of our project and long-term goals. Our developer and team have vowed to work tirelessly to build a community of investors focused on the long-term future of the project, enjoying a passive income, whilst also being involved in the development of our web presence and advertising strategies. Our pledge to our community is not simply a common catch

<https://www.heroesofcrypton.com>

phrase, rather it's the underlying value that shapes every decision that we make. Our community of investors deserve a project where they know they have the best and brightest minds working together to achieve financial freedom and success.

Trust and Transparency

Our second pledge, our pledge to trust and transparency, defines how we operate as both a team and an overall community. Complete transparency reduces the need for trust, but we will provide both. We are built-on community trust and will always strive for the highest levels of transparency in everything that we do to provide our community with a clear insight and understanding of all processes that go in to making Heroes Of Crypton a successful project. There are many moving pieces that must all come together to create a successful BSC gaming project with such an advanced ecosystem like HoC, and our community is ensured that they will have full access to and understanding of all aspects of our team. This allows our team to benefit from the support of our community and gain insights from community suggestions and influence as we all work together in a transparent and supportive environment. We understand that our community are not just investors, but also talented traders, marketers, and innovators and we strive to maximize their talents and resources to further the success and potential of our project.

Innovation

The first steps in our pledge to innovation is our Heroes of Crypton P2E Game where users engage in virtual game-play, earning native tokens all while engaging in our fun and exciting gameplay mechanics. This is followed by our MyNFTMarketplace.io (NFT Staking Pools and NFT Marketplace) where you can mint NFTs and create a staking pool to earn daily rewards through passive income. Finally, our HoC Miner which is a decentralized application built on the Binance Smart Chain that pays you 10% daily on average on your Heroes Of Crypton deposit into the Heroes of Crypton contract. HoC was designed to become the most sustainable miner powered by a unique auto-compounding feature. 25% from every withdrawal goes back into the contract. This is a modified version of a well-known passive income platform that will ensure the longevity and sustainability of the miner. We have also implemented proven tokenomics without taking the shortcuts, bringing fun, decentralization, transparency, and safety for all investors. These exciting developments are just the first step in our drive to provide the HoC community with the most innovative and rewarding utilities as we work together to maximize investor returns and community growth. We know that investors today are no longer investing in the same copy-

<https://www.heroesofcrypton.com>

cat projects of yesterday, but are looking for innovation, fun, talent, utility, rewards, and transparency. We have answered this call and our community will lead the next generation of innovative, blockchain based gaming projects that will maximize community support and resources and continually evolve and add to our growing utility and marketing functions. Heroes Of Crypton will never become stagnant or complete if there is innovation and talent driving our team and community to new heights. Finally, we pride ourselves on taking initiative and speaking with our actions. We see the potential this project has, and will do everything we can to make our vision a reality.

The Heroes Of Crypton Ecosystem

Heroes of Crypton Play-2-Earn Game

HoC is a play to earn game platform featuring the blockchains most Heroic meme superheroes.

Pick your favorite Heroes of Crypton character and fly through space while collecting tokens while trying to make it back to earth to save the BSC community from ruggers and space monsters.

- Each level you fly through will feature a different villain and each villain will reward a greater number of tokens.
- Earned in-game tokens are redeemable for (Hero) tokens and these tokens can be swapped for BNB or you can use them in our Marketplace.

You Can Now:

1. Swap Hero tokens for BNB.
2. Use your Hero tokens to purchase NFTs to stake for daily rewards (passive income).
3. Use your Hero tokens to level up.
4. Use your Hero tokens for unlockables.

Which meme tokens will be featured on HOC?

We have been contacted by a few highly driven community meme tokens which will be featured as a Heroes of Crypton character and users will play to earn their native token. Each Hero of Crypton will be provided with their very own NFT collection and staking pool for rewards. All NFTs will be only

<https://www.heroesofcrypton.com>

purchasable via HOC tokens exclusively through MyNFTMarketplace.io bringing much awareness and users from many groups different groups and communities.

What is the best strategy?

This can't be answered properly, as it highly depends on the lifespan of the contract. Generally, you would want to compound at least some of your earnings so you get additional heroes paying you more Heroes of Crypton every day.

How to redeem tokens?

Sign up by creating a username/password, use your email address and please be sure to use your correct Binance wallet address this is where your tokens will be sent to. While playing Heroes of Crypton users will collect in Game coins which then are redeemable for actual tokens. Simply click the redeem button where you will now notice the redeem button has to be reset to redeem again. We ask you to please not to redeem again until you have received your first amount of tokens to your Binance wallet as each transaction is screened and will be approved by a member of our staff to ensure a successful transaction.

Heroes Of Crypton (HOC) Token

HOC Heroes Of Crypton is a community driven token which runs on the Binance smart chain with unique tokenomics. Sells are subjected to a tax which adds liquidity to each pool and feeds tokens to our NFT / Mining Pool for daily rewards.

Heroes of Crypton Miner

Heroes of Crypton is a decentralized application built on the Binance Smart Chain that pays you 10% daily on average on your Heroes Of Crypton deposit into the Heroes of Crypton contract. The daily percentage ROI depends on several factors.

Why is HOC different than any other miner?

Heroes of Crypton was designed to become the most sustainable miner powered by a unique auto-compounding feature. 25% from every withdrawal goes back into the contract. It is a modified version of the well-known passive income platform that will ensure the longevity and sustainability of the miner.

<https://www.heroesofcrypton.com>

What happens when my barrel becomes full?

Your Heroes will not stop working for you, however it's beneficial if you compound (hire more heroes) or claim (pocket) your Heroes divs within 24 hours. This is a way to keep people engaged.

Can I take my initial deposit back?

Once you deposit, you can't take it back. You can only earn it back slowly over time by pocketing your Hero divs.

How long do the Heroes work for?

The Heroes will work for you indefinitely as long as the contract is filled with funds. They cannot be sold or exchanged.

How much are the fees?

On every deposit, 5% goes to the liquidity pool. Every day this will be added back into liquidity to grow the Heroes Of Crypton / BNB liquidity pool.

MyNFTMarketplace.io

Imagine a platform where you can mint your NFT collections while we provide you with the proper tools to create your very own staking pools for daily rewards.

NFT Marketplace

MyNFTMarketplace is ran on the Binance smart chain allowing our users to mint-buy-sell-auction there NFT collections. All transactions will be strictly ran on BNB while charging a small 10% fee which is applied to the HOC Liquidity Pool.

- Purchase Heroes of crypton NFT
- Stake your NFT's and earn a daily reward
- Unstake your NFT and relist for sale

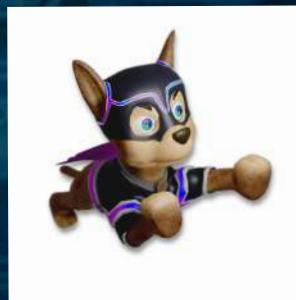

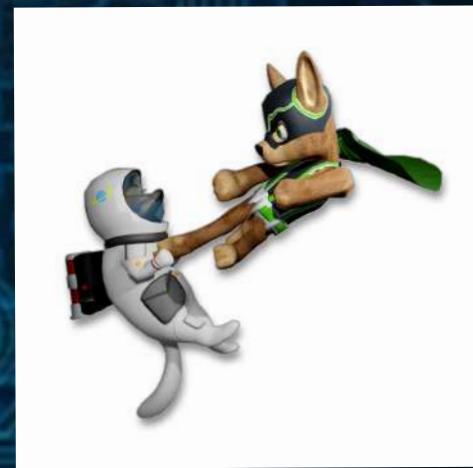

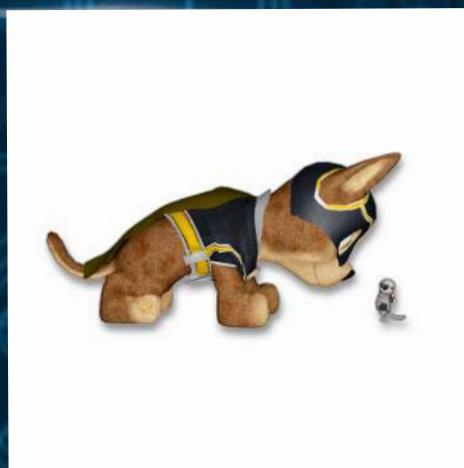

<https://www.heroesofcrypton.com>

NFT Staking Pools

We have designed an NFT staking pool which gives our members a unique chance for earning daily rewards (passive income). These staking pools will only have a small amount of collections to be minted for actual staking rewards. Only 500 will be minted for staking weekly resulting in larger rarity and value. Each week the rewards in the pool will rise as the new collections are minted. Users can purchase Heroes NFTs sold on the marketplace and simply stake for a double reward. To stake, simply purchase BNB tokens and head to our [MyNFTMarketplace.io](#), click the staking page and unlock your Vault. Once in the Vault tab, click mint and allow the transaction, you will now see your Heroes of Crypton NFTs. You can now click stake for rewards and earn HOC rewards on a daily basis.

How many NFTs will be available for staking?

As of right now we will be minting a collection of 1000. NFTs for staking rewards and will add as needed. Each NFT will be charged \$300 in BNB tokens, all funds raised will be distributed to the HOC liquidity pool.

<https://www.heroesofcrypton.com>

Tokenomics

Total Supply: 1 Quadrillion

The total breakdown of each transaction will be distributed as follows:

Transaction Tax (Buy) 6%

- Founders 3%
- Marketing 3%

Transaction Tax (Sell) 14%

- NFT Staking Pool 5%
- Miner Pool 3%
- Marketing 3%
- Liquidity for Heroes Token 3%

Team Members

We understand that having a strong team and a proven strategy in place is fundamental to the success of our project. Our portfolio construct is primarily driven by our focus on improving the Decentralized Finance Industry. As a result, only the best brains and brilliant minds with proven track records of success have come together to achieve this landmark feat. Our team consists of impressive experts in the blockchain gaming industry, professionals in startup development, and experienced leaders in technology.
